

**NOTICE OF INTENT TO ISSUE
TITLE V Operating Permit Renewal, No. 23-00089
PHASE II Acid Rain (Title IV) Operating Permit ORIS No. 55801**

Notice is hereby given, pursuant to 25 Pa. Code, Sections 127.427 and 127.521, that the Pennsylvania Department of Environmental Protection (DEP) intends to renew a Title V Operating Permit to Marcus Hook Energy, L.P./750 MW, located at 100 Green Street, in Marcus Hook Borough, Delaware County.

The facility is a natural gas-fired electric generating station with a nominal power generation of 750 MW. Sources at the facility consist of three (3) natural gas-fired combustion turbines each equipped with a duct burner. As a result of potential emissions of Nitrogen Oxides, Sulfur Oxides, Volatile Organic Compounds, Particulate Matter and Carbon Monoxides, this facility is a major stationary source as defined in Title I, Part D of the Clean Air Act Amendments. The facility is therefore subject to the Title V permitting requirements adopted in 25 Pa. Code, Chapter 127, Subchapter G. It is also subject to the New Source Performance Standards of 40 CFR part 60, Subpart KKKK, Acid Rain Requirements of 40 CFR Parts 72-78 and the Cross-State Air Pollution Rule (CSAPR), codified in 40 CFR Part 97 Subparts AAAAA and BBBBB (relating to TR NO_x annual trading program; and TR NO_x ozone season trading program. The renewal of Title V Operating Permit does not authorize any increase in air emissions of regulated pollutants above the previously approved levels.

In accordance with 25 Pa. Code Section 127.530, the Acid Rain Requirements of 40 CFR Part 72 are incorporated into a Phase II Acid Rain permit (ORIS No. 55801) issued under separate cover concurrently with the Title V Operating Permit. Upon final approval, the permit will be issued for a period of five (5) years.

An appointment to review the permit application and the draft Title V Operating Permit and Phase II Acid Rain Permit at the Department's Southeast Regional Office may be scheduled by contacting the Record's Management staff, at (484) 250-5910 between 8:00 AM and 4:00 PM, Monday through Friday, except holidays.

A thirty (30) day comment period, from the date of this publication, will exist for the submission of comments. Each written comment must contain the following:

- Name, address, and phone number of the person submitting the comments.
- Identification of the proposed permit (specify permit TVOP 23-00089; ORIS No. 55801).
- Concise statements regarding the relevancy of objections to issuance of the permit.

A public hearing may be held, if the Department of Environmental Protection, in its discretion, decides that such a hearing is warranted based on the information received. All persons submitting comments or requesting a hearing will be notified on the decision to hold a hearing by publication in this newspaper, or by the Pennsylvania Bulletin, or by telephone, where the Department of Environmental Protection determines such notification by telephone is sufficient. Written comments or requests for a public hearing should be directed to:

James D. Rebarchak
Regional Air Quality Program Manager, Southeast Region
Commonwealth of Pennsylvania, Department of Environmental Protection
2 East Main Street, Norristown, PA 19401
(484) 250-5920
